

# Sustainable Palm Oil

Action Plan

For Godrej Industries (Chemicals)  
July, 2017

Our 'Sustainable Palm Oil' policy outlines the principles we stand by and following is our plan to action the same.

### Commitment to Sustainability

*Timeline: Immediate*

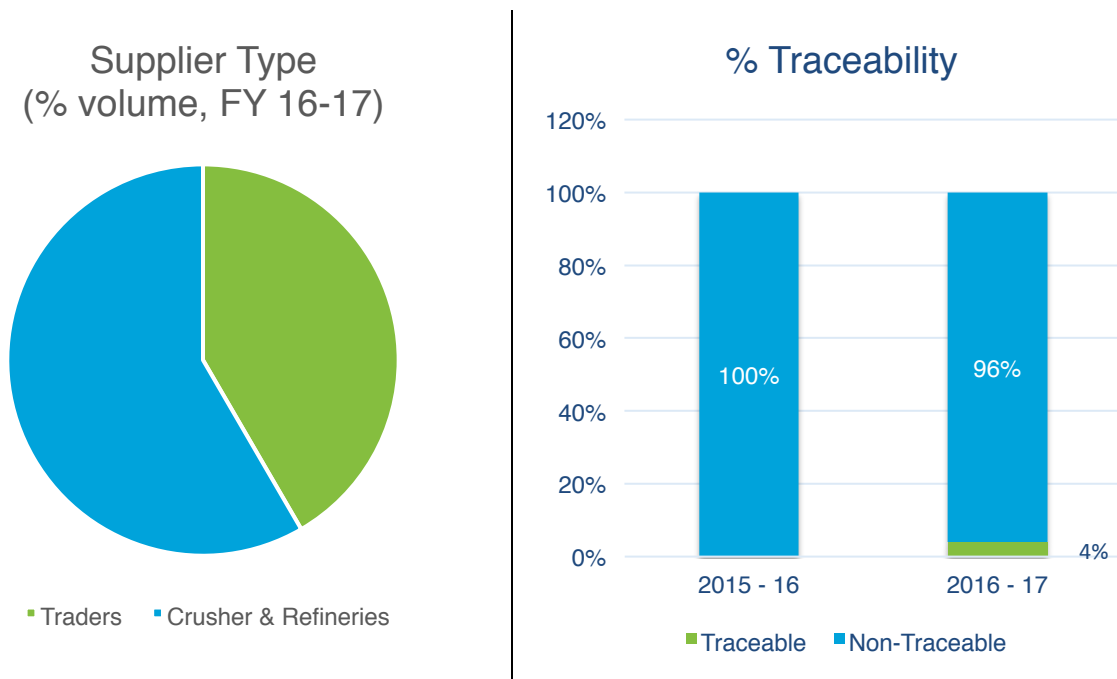

With our Sustainable Palm Oil policy, we are committed to the following in our supply chain:

- zero deforestation
- no cultivation on peat land
- protection of High Value Carbon (HVC) areas and High Carbon Stock (HCS) and
- Free, Prior and Informed Consent (FPIC) of communities

### Transparency

*Timeline: Immediate*

Recognizing that one of the biggest hurdles to ensuring the sustainability of palm oil is the lack of transparency in the supply chain, we are committing ourselves to sharing data about our sourcing mechanism and practises henceforth.

### Commitments from our suppliers

*Timeline: Continuous and ongoing*

As a non-plantation linked palm oil processor based in India, we rely on complex logistical supply chains often involving a series of traders and suppliers for procurement. We are committed to the RSPO principles and those detailed in our 'Sustainable Palm Oil' policy. To ensure compliance towards this commitment, we will continue to work with our immediate suppliers and shall obtain undertakings detailing their assurances towards the same.
