[Commitments from our suppliers](#)

Timeline: Continuous and ongoing

As a non-plantation linked palm oil processor based in India, we rely on complex logistical supply chains often involving a series of traders and suppliers for procurement. We are committed to the RSPO principles and those detailed in our 'Sustainable Palm Oil' policy. To ensure compliance towards this commitment, we will continue to work with our immediate suppliers and shall obtain commitments detailing their assurances towards the same.

Action taken: We have contacted major players of our upstream suppliers and have started obtaining commitments from them.
