## **Godrej Industries' Chemicals Business to Invest over INR 750 CR for Capacity Expansion**

**Mumbai, July 3, 2025:** Godrej Industries Limited's Chemical Business today announced significant capacity expansions in sync with the company's growth plan to become a USD 1 Billion global business before 2030. With a total capital outlay for expansions to exceed INR 750 Crore over the next few years, the company has already kicked off several projects.

The company announced doubling of its Fatty Alcohol and Euric Acid capacities with an addition of 35,000 tons per annum and 20,000 tons per annum respectively. It has tripled its specialities capacity with an addition of 21,000 tons per annum while the glycerine capacity will be doubled with an addition of 24,000 tons per annum. The fermentation capacity will also see a threefold increase with an addition of 1,500 tons per annum. It plans to increase the Primary Surfactants capacity with an addition of 30,000 ton per annum. Additionally, to support the company's sustainable operations, it will enhance its hybrid power capabilities thereby increasing renewable energy usage to 75 percent.

**Vishal Sharma, Executive Director and Chief Executive Officer, Godrej Industries (Chemicals)** said "Consistently achieving double-digit volumes and revenue growth year after year, it's a very exciting time for us here at Godrej Chemicals. The significant investments in our R&D and Commercial teams reflect our commitment to Sustainable Operations and Green Products in our quest to deliver innovative solutions to our customers across all market segments. Our capacity additions align with our long-term aspirations to become a USD 1 Billion global business before 2030. On behalf of our entire team, I thank our customers, suppliers and stakeholders for their great support which is enabling our strong progress year after year."

The company sees Green Chemistry as an important pillar in its growth strategy. While it is reducing its environmental footprint through energy efficient processes, adoption of renewable energy and zero waste goals, it is also leveraging biocatalysis, continuous manufacturing and fermentation for green, efficient and milder innovations. Hence, today's announcement further reinstates the company's strong focus on sustainability, innovation, and tailored solutions for its focus segments.

### **About Godrej Industries (Chemicals)**

Godrej Industries (Chemicals) is one of the oldest businesses of the Godrej Industries Group, established in 1963. We are focused on being a "Green chemistry" company, dedicated to helping the environment and ensuring a greener and more sustainable future. Today, we are one of India's leading providers of oleochemicals, surfactants, specialty chemicals, and biotech products, all produced largely with renewable feedstocks from vegetable oils.

We drive business through sustainability, customer centricity, and renewable resources-focused chemistries, with a global presence in more than 80 countries. With four manufacturing locations (one in Maharashtra, two in Gujarat & one in Goa) and a state-of-the-art R&D Center in India, we specialize in delivering tailored solutions to meet specific applications and performance requirements for customers in our focus segments.

We operate in varied segments like home & personal care, oil & gas, food & beverages, lubricants & metalworking fluids, paints & coatings, agrochemicals, pharmaceuticals, rubber, chemical and polymer intermediaries. Our dedication to responsible practices has earned us prestigious awards and certifications, highlighting our global market impact and a strong preference among suppliers and customers.
